

IS1404 E-READ: Evolution of Reading in the Age of Digitization

Position paper

Name: Elisa MARAZZI

WG(s): WG3

1. **Potential research contribution** in light of, or linked to

A. WG interest and Scientific programme:

Contribution for Italy (and if necessary, France and Denmark) to the review of national survey dealing with digital reading practices (WG3). Possible contribution to preparation and distribution of a pan-European survey on digital reading.

B. Action objectives (pages 7-10 in the MoU):

Trained in book history, I could contribute in the process of building up an interdisciplinary paradigm f. ex. defining publishing genres, outlining the evolution of educational tools (books and non-books). Such topics could also be included in interdisciplinary scientific publications: I would be glad to participate in a co-written publication.

I have taken part to the Gaming and Reading workshop organized by A. Sofronijevic and Brigitte Ouvry-Vial in France and I am willing to take part to the collective publication we discussed about.

I could also help with the conception/preparation of a H2020 proposal.

2. Interest in

A. organizing and/or participating in a **short-term scientific mission (STSM)**.

Yes, linked with the WG3 survey project.

B. organizing and/or participating in a **Training School** (please indicate what kind of training [theoretical; methodological; technical]).

If possible, I would be interested in participating in a theoretical training school.
